

NEW INFORMATION ON PLASMA DONATION AND THE 2019 NOVEL CORONAVIRUS (COVID-19)

All plasma donors must read this new information on the 2019 novel coronavirus (COVID-19) and plasma donation. Carefully consider the information below.

DO NOT DONATE PLASMA TODAY IF:

- You have been diagnosed with or suspected of having a COVID-19 infection in the past 28 days.
- You have traveled to an area with an outbreak of the COVID-19 in the past 28 days. According to the CDC, there is currently an outbreak in:
 - **People's Republic of China** (not including Hong Kong, Macau or the island of Taiwan)
 - **Iran**
 - **South Korea**
 - **Italy**
- You have lived with individuals diagnosed with or suspected of having a COVID-19 infection in the past 28 days.

If you think you should not donate plasma based on this information, you may leave at this time.

THANK YOU for helping us keep our plasma donors and donor center staff as healthy as possible!
